Technical Standard:	EN ISO 13688:2013 EN 17092-3:2020	Protective clothing – general requirements Protective garments for motorcycle riders – Part 3: Class AA garments – Requirements
Intended use:	Motorcycling: preventive use – <u>correct fitting and positioning of the inner protections are essential</u> – the protective functions are guaranteed only by the trousers + protectors correctly inserted.	
Size range:	<u>Men's sizes:</u> from XS to 12XL <u>Women's sizes:</u> from DXS to D12XL	
Technical File:	DC-15252	
Test report:	RCT n° 4141818/E	

EU Type Examination Certificate

Date: 2022/08/02

n. **907223103/OE**

Validity: 2027/08/01

Functions and performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class AA(*): Class AA garments offer protection from impact and abrasion against the risks of the greatest diversity of riding activities and may have lower ergonomic and weight penalties than Class AAA garments.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

printed on stitched labels displaying the following information:

- **CE Marking**:

- registered Trademark of the Manufacturer (gms);
- item designation (article name);
- pictogram to indicate the intended use (motorcycling), class of protection achieved, nr./year of the reference Standard;
- pictogram instructing to read the User Manual;
- size indication;
- additional information: material composition, care/washing symbols and instructions, "Made in...", etc.
